MIDDLE CONNECTIONS

Half Day Camp
Saturday, June 18, 2022

Come participate in an educational outreach research opportunity specifically designed for middle school students at the Middle Connections Half Day Camp at the University of Missouri-Columbia.

Middle Connections is a program for young learners in grades 6-8 from underrepresented and low-income backgrounds in the central Missouri.

Energy Efficient Buildings
Build a one-room sustainable building. Model how energy flows into and out of the building and make choices that increase the sustainability of your building.

Epidemics
Use different kinds of scientific models to learn about viral spread. You will create models, use computer simulations, and role play as an epidemiologist, doctor, or research scientist. Within your role, you will analyze scientific models and make recommendations to the other role-playing participants about the epidemic.

Morning Session: 9:00 a.m. - 12:00 p.m.
Afternoon Session: 1:00 p.m. - 4:00 p.m.

REGISTER TODAY!
